HEADMASTER®

CROWN
GLASSWARE

Over 90 years ago, Crown Glassware developed the first draught beer glass shapes in Australia, which are still known in the industry as Conical and Washington.

DETAILS

Crown has continued to set new standards by developing the nucleated 'Headmaster' and embossing the base of glasses to indicate W&M capacities.

More recently Crown expanded its collection to include new shapes in stemware, cocktail glasses, and tumblers.

With an enduring commitment to quality, tradition, design and innovation, Crown Glassware continues to be an industry favourite.

trenton | CROWN CRYSTAL SIGNATURE

Fiesta

Experience the ritual and enjoyment of every glass of wine with Fiesta, the inaugural range of Crown Crystal's Signature collection.

Made in the EU from lead-free crystal glass, Fiesta is built to let wine speak for itself, offering a presentation that enhances the natural colours, aromas, and flavours of every glass.

The bowls are shaped to give wine room to open, tapering toward the rim to gather aroma and carry it to the nose. Select items feature an epicure point, an indentation at the base of the bowl that lifts the true colour of wine and gives the pour a quiet sense of occasion.

Considered in the hand, elegant in the pour, and made for venues where wine service matters.

LIBBEY | onis | royal leerdam

A collection showcasing three of Europe's leading glassware manufacturers.

DETAILS

LIBBEY
With over 200 years of experience, Libbey has become one of the world's most recognised and iconic brands. From mixology, wineglasses, and all-round glassware, Libbey has glasses for all occasions.

ONIS
ONIS is the new brand of two European glassmakers that bring authenticity and uniqueness to glassmaking. ONIS glassware is designed to make a statement and inspire professionals to add value to their drink creations.

ROYAL LEERDAM
For over 145 years Royal Leerdam has been designing and manufacturing elegant and functional glassware. Royal Leerdam is part of Leerdam Crisal Glass, a well-known glass producer in the European cities of Leerdam in The Netherlands and Marinha Grande in Portugal.

Libbey's innovation in design and manufacturing delivers durable pieces to suit any venue and taste. DuraTuff treated glassware is designed to strengthen the upper portion of the glass, increasing its resistance to thermal and mechanical shock.

+DuraTuff®

The ONIS Xtratuff treatment is applied to the upper half of the glass, adding toughness, durability and resistance to breakages. This process also reduces wear and tear of stackable glasses, helping to meet the highest professional standards in glassware.

trenton | LIBBEY

Rhythm

The stackable Rhythm range from Libbey brings understated character to any bar or table. Vertical optical ribbing catches the light and adds visual interest to any pour. Smooth to the touch and easy to clean, the detailing is as practical as it is distinctive.

An inner rim allows for secure stacking, keeping back-of-house organised when space is at a premium. Dishwasher safe and strengthened through Libbey's DuraTuff heat-treating process, these glasses offer enhanced resistance to the thermal and mechanical stress of busy service. DuraTuff also improves rim durability, the area most exposed to impact during stacking.

Available in a 350ml Beverage and 260ml Rocks, Rhythm suits a wide range of service occasions, from cocktails and mixology to iced coffee and water.

ONIS
Classic Bar

Designed for professionals who know the ritual - the pour, the garnish, the serve - Classic Bar range blends short-stem elegance with sleek tumblers, perfectly versatile for today's bar rhythm.

Comprised of four contemporary, low-profile stems and three minimalist tumblers, the Classic Bar range fits perfectly across styles and settings. Each piece is finished with a laser cut rim for a clean, precise edge, and crafted to feel noticeably lightweight in the hand, adding a sense of refinement to every serve. Its timeless simplicity brings out the character of each drink and celebrates the skill behind the bar.

Beautifully functional, naturally stylish, and ready for the ultimate drinking experience.

Luigi Bormioli

Italian craftsmanship, cutting-edge technology, and innovation create the highest quality premium glassware.

DETAILS

Titanium reinforcement and pulled stem technology add strength and flexibility to stemware, while fine, laser cut rims enhance the drinking experience. Epicure Point treatment creates an extra persistent flow of bubbles.

SON.hyx is a patented formula with outstanding chemical, optical and mechanical properties. Glassware is totally transparent according to ISO/PAS IWA 8:2009, and can withstand 4,000 dishwasher cycles with no alteration in transparency.

Sparkx glassware has extremely low iron content, providing a premium transparency that remains true for over 2,000 dishwasher cycles. Sparkx is lead and other heavy metal free.

Top Class

Introducing a new take on the ever-popular Top Class range for those who want to make a minimalist, contemporary statement: Top Class Square. The rounded square shape presents drinks in a new light when opposed to its counterpart, making use of flat edges for enhanced beverage clarity.

Exceptionally light and durable, the thin walls are possible thanks to SON.hyx® superior blown crystal glass. This outstanding material preserves brilliance and transparency even after more than 4,000 industrial dishwashing cycles.

When it comes to precision glassware, Nude offers a complete solution for the hospitality industry. Nude is the creator and manufacturer of high quality contemporary glassware.

DETAILS

Launched in 2014, in collaboration with artists and designers, Nude has created collections which pay attention to detail whilst creating something inspirational with a sense of simplicity. Nude products are made with only one material: lead-free crystal glass, hand or machine-made, that delivers a level of transparency and delicacy unparalleled in the world of glass.

Nude Bar/Giani

Introducing the Bar/Giani Cocktail Collection, where artistry meets functionality.

The timeless collection was designed by renowned mixologist Giorgio Bargiani, named International Bartender of the Year 2023 at Tales of the Cocktail, bringing elegance and charming design together as well as enhancing the drinking experience by protecting its clear look without the hassle of fingerprints on the glass.

New

Bar/Giani

About

The Bar/Giani Collection offers a stylish presentation of cold and frosted beverages with its stemmed design. The glasses maintain the aesthetic integrity of frosted drinks, enhancing the visual appeal of any setting.

KEY FEATURES

— Crafted from lead-free crystal glass, delivering exceptional brilliance, clarity, and strength for the demands of professional hospitality environments.

— The convex design enhances versatility, allowing the glasses to suit various cocktails.

— Perfect for storage on glass hangers to save crucial space behind the bar.

— Stems reduce contact with the glassware's bowl, helping to preserve a drink's beauty and temperature.

Paşabahçe

Since 1935 Pasabahce has been producing quality glassware focusing on design, strength and innovation. Pasabahce is now one of the three largest producers of glassware globally.

DETAILS

From wine glasses, mixology, and core basics, Pasabahce's extensive range has the right glass to suit any style or setting.

Pasabahce offers toughened glassware, engineered to withstand thermal shock, ensuring resilience against sudden temperature changes. Toughened glasses are also 4–6 times stronger than normal glassware, guaranteeing a longer lifespan and reducing replacement costs.

The Aware collection also highlights Pasabahce's commitment to the environment, with 100% recycled glass for a more sustainable planet.

POLYSAFE

The stunning Polysafe drinkware range *provides the customer experience you need* from your glassware while providing a safe drinking environment.

DETAILS

The Polysafe range is stylish, lightweight, durable and made from the highest quality food-grade polycarbonate. Beautiful to look at, it's cleverly crafted to provide a strong internal structure that guarantees no cracking or injection bubbles. This results in a rigorous long lasting product that's a dream to drink from and a smart choice.

VICRILA

With over 130 years of expertise, Vicrila is committed to producing the finest glassware that blends usability, aesthetics, and sustainability.

DETAILS

Founded in the Basque Country in 1890, Vicrila has a proud history built upon a dedication to perfecting and innovating glassmaking techniques.

Impeccable attention to detail ensures each piece of Vicrila glassware is carefully and precisely made, from the raw ingredients to the completed product.

All Vicrila glass is 100% recyclable and does not need pre-treatment to return to the production system.

MISC

ZWIESEL GLAS

SCHOTT ZWIESEL

Made in Bavaria, Germany since 1872, Schott Zwiesel has been combining tradition with contemporary aesthetics, creating elegant glassware tailored for the rigours of hospitality use.

TRITAN® PROTECT

TRITAN PROTECT
The ranges feature double the protection against stem breakage compared to conventional glasses. The specially tempered surface protects glass against scratches and increases strength and durability.

EFFERVESCENT POINTS
Discrete effervescent points are laser etched at the inside base of the bowl to improve the presentation and longevity of the bubble stream. These points help to encourage the gas to separate at the base of the bowl, which in turn causes the bubbles to spiral upwards through the full length of the glass.

Schott Zwiesel balances innovation with tradition, blending advanced technology with centuries-old glassmaking techniques. Ensuring modern standards of performance, these glasses maintain a timeless appeal across all ranges.

trenton | ZWIESEL GLAS

Transition

Transition by Zwiesel Glas combines pioneering innovation and creative design. Developed specifically for the sensory requirements of non-alcoholic beverages such as kombucha, water kefir, jun tea, and shrubs, it is the first glass collection of its kind.

Created in collaboration with renowned designer Carsten Gollnick and international experts in fermented and non-alcoholic drinks. Transition is not primarily intended to be a wine glass series for non-alcoholic drinks. Rather, the aim is to provide the ideal stage for innovative non-alcoholic alternatives to showcase their diverse flavour profiles. From all-round flavour to umami, savoury aromatic drinks – each glass is tailored to different flavour spectrums, sensory tested, and checked for suitability for the hospitality industry.

trenton | ZWIESEL GLAS

Move

Wine enjoyment, refined down to its most delicate form. Move by Zwiesel Glas offers a feather-light drinking experience thanks to its drawn stem and fine bowl. The premium feel is complimented by expert shape design for exceptional sensory experiences, where aromas are optimised through a deep understanding of drink characteristics.

Machine manufactured in Germany from brilliant Tritan® crystal glass, Move provides superb clarity, durability, and is dishwasher safe for uncompromised enjoyment in bar and restaurant environments.

trenton | ZWIESEL GLAS

Rooftop

Rooftop by Zwiesel Glas combines delicate design with exceptional functionality. Inspired by the world's 50 best bars and developed with experienced bar experts, the collection features thin-walled glasses, compact sizes, and a retro design language. Small bowls concentrate aromas and create an intense sensory experience, tailored to the demands of professional bar concepts.

Machine-made in Germany from Tritan® crystal glass, Rooftop bar glasses impress with brilliance, durability, and dishwasher safety.

Care & Maintenance

Glassware

Proper care and maintenance of commercial glassware is crucial to ensure its longevity, clarity, and overall appearance. Follow these steps to keep your glassware in top condition, providing a professional and appealing presentation for your establishment:

1 Washing

Commercial Dishwashers:

- **Dedicated Glassware Racks:** Use racks specifically designed for glassware to prevent movement and collisions.
- **Proper Loading:** Load the dishwasher carefully, ensuring the glasses are secure and do not touch each other.
- **Appropriate Detergent:** Use detergents formulated for commercial dishwashers and glassware.
- **Gentle Cycle:** Select a gentle or glassware-specific cycle to minimise damage from high temperatures and strong water jets.
- **Rinse Aid:** Use a rinse aid to prevent water spots and enhance the shine of the glassware.

2 Drying

- **Air Dry:** The safest method is to allow glassware to air dry. Place items upside down on a clean, lint-free towel or drying rack.
- **Soft Cloth:** If towel drying is necessary, use a soft, lint-free cloth to avoid scratches and lint residue. Microfiber cloths are ideal for this purpose.

3 Polishing

- **Polishing Cloth:** Use a microfibre or lint-free cloth designed for glass polishing.
- **Steam Method:** Steam the glassware over hot water and then polish with a cloth to remove spots and streaks.
- **Avoid Excessive Pressure:** Apply gentle pressure while polishing to prevent breakage.

4 Storing

- **Vertical Storage:** Store glassware upright to avoid putting pressure on the rims, which are the most fragile part.
- **Avoid Stacking:** Do not stack glassware unless it is designed for stacking, as this can cause scratches and increase the risk of breakage.
- **Use Dividers:** Use dividers or separators on shelves to prevent glasses from touching and chipping.

5 Usage Tips

- **Avoid Extreme Temperatures:** Do not expose glassware to sudden temperature changes. Avoid pouring boiling liquids into cold glasses or placing hot glasses in cold water.
- **Handle with Care:** Handle glassware by the base rather than the rim to reduce the risk of breakage and fingerprints.
- **Inspect Regularly:** Check glassware for chips or cracks regularly. Remove damaged pieces from circulation to ensure safety.

6 Preventing Cloudiness

- **Avoid Hard Water:** Use a water softener if your water supply is hard. Hard water can leave mineral deposits that cause cloudiness.
- **Proper Rinsing:** Ensure thorough rinsing to remove all soap residues, which can cause cloudiness.
- **Regular Descaling:** Regularly descale the dishwasher to remove mineral buildup that can affect glass clarity.

Polycarbonate drinkware is a popular choice due to its durability, clarity, and safety compared to glass. To ensure your polycarbonate drinkware stays in optimum condition, follow these steps:

1 Handwash

- **Wash Before Use:** Wash new drinkware before using it for the first time.
- **Use Mild Detergent:** Clean with a mild, non-abrasive cleaner such as Polyclean by Polysafe. Harsh chemicals can damage the surface.
- **Soft Sponge:** Use a soft cloth or sponge. Avoid abrasive scrubbers or scouring pads that can scratch the surface and cause a cloudy appearance. Glass brush cleaners are damaging to polycarbonate surfaces. If using a glass brush cleaner, fold a cleaning cloth over the bristles to create a protective barrier
- **Warm Water:** Wash in warm water. Avoid very hot water and excessive heat, which can warp the drinkware.

2 Dishwasher

- **Avoid High Heat:** Use a gentle or eco-friendly cycle to prevent heat damage. Polycarbonate can warp or crack under high temperatures.

3 Drying

- **Air Dry:** Air drying is the safest option. Place drinkware upside down on a clean towel or drying rack.
- **Soft Cloth:** If towel drying is necessary, use a soft, lint-free cloth to avoid scratching.

4 Storing

- **Stacking:** If stacking, ensure drinkware is completely dry to prevent moisture buildup and possible bacterial growth. Place a soft cloth or paper towel between stacked items to avoid scratching.
- **Avoid Overcrowding:** Store in a spacious area to prevent damage from overcrowding or heavy items pressing against the drinkware.

5 Usage Tips

- **Avoid Microwave:** Do not use polycarbonate drinkware in the microwave, as it can cause warping.
- **Avoid Boiling Liquids:** Do not pour boiling liquids directly into polycarbonate drinkware to prevent warping or cracking.
- **Prevent Staining:** Avoid leaving strong-coloured beverages (e.g., coffee, red wine) in the drinkware for extended periods to prevent staining.
- **Limit Alcohol Use:** Polycarbonate can react with high-proof alcohols. Limit prolonged exposure to strong undiluted spirits.

6 Stain Removal

- **Soaking:** For heavily soiled glasses, use Revive polycarbonate soaker by Polysafe.

7 Avoiding Damage

- **Avoid Impact:** Polycarbonate is durable but not indestructible. Avoid dropping or knocking the drinkware against hard surfaces.
