PERFORMANCE MEETS SUSTAINABILITY

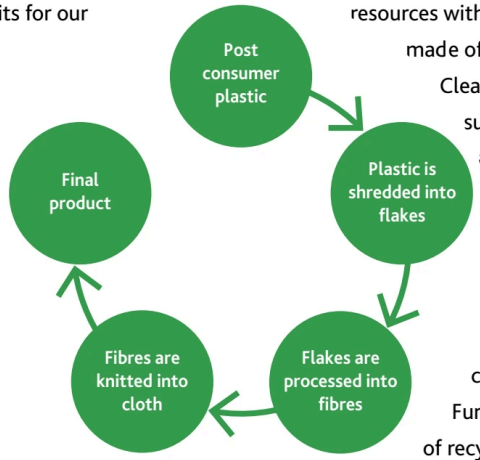

Welcome to the FHCS Professional product catalogue. Full of first-class cleaning solutions that support sustainable values and are driven by innovation and responsibility. FHCS products are crafted to perfection, embodying our commitment to sustainability for you, your customers, and the planet. At FHCS, we are driven by a clear goal: We aim to convert our focus on customer needs into cleaning solutions that not only provide you with a competitive edge but also enable you to pledge your commitment to sustainability.

CLEAN MEETS GREEN

For many years FHCS has invested into the responsible handling of materials, waste, energy, emissions and water. All these efforts translate into sustainable cleaning solutions with superior ecological profiles, which turn into benefits for our customers.

Users of FHCS products rely on best-in-class cleaning performance, bacteria/virus removal, intuitive handling and ergonomics and accept no compromises in these elements. Our objective is to give additional confidence that the production, usage and disposal of our sustainable cleaning solutions has the lowest impact on the environment and global resources – throughout the whole product life cycle.

That is why we offer sustainable cleaning solutions that have a minimal product footprint while reducing the consumption of resources during operation.

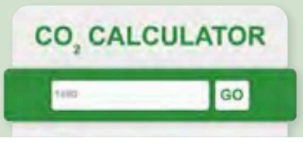

r- FOR RECYCLED

Making our economy sustainable is not a coincidence, but the direct result of actions we take – as companies and customers. That is why we created our 'r-' line, a series of products that save resources without reducing performance or durability – made of up to 100% recycled materials.

Clear milestones mark our way to a sustainable future. We are proud to announce that we are a signatory of the Ellen MacArthur Foundation's New Plastics Economy Global Commitment. As such, we are working to eliminate non-recyclable packaging and to achieve 100% recyclable, reusable, or compostable alternatives.

Furthermore, we are increasing teh amount of recycled material in our solid plastic products. Customer satisfaction is paramount: the better we understand your business, the better our products meet your needs.

We have conducted detailed CO2 calculations on all our 'r-' ranges. The results are available in our CO2 calculator, allowing you to view the sustainable benefits of the 'r-' range – scan the QR Code to see

Your success is our success.

That is why we have transformed our "Listen and Learn" approach to a customer-centric strategy. This customer focus is how we guarantee you get the best solutions and services to contribute to your competitive advantage.

Be it in offices, hospitals, hotels or controlled environments, FHCS stands ready as your partner.

Explore all our innovations and lead your business to sustainable success. Welcome to FHCS Professional!

SPEND TO SAVE

Our Spend to Save concept is driven by our collaborative approach to business. Together, we develop a partnership and a relationship that will flourish over time from your very first investment. Investing in our brands, our people, our systems, and our solutions may involve an initial investment that will lead to long-term savings and valuable benefits.

IMAGINE A SCENARIO WHERE SPENDING MONEY NOW MEANS YOU'LL SAVE IN THE FUTURE. THIS IS TOTALLY ACHIEVABLE!

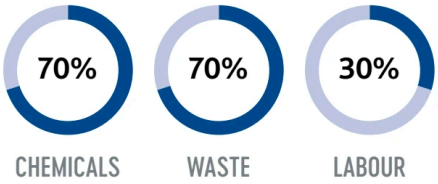

When you purchase our cleaning systems and solutions, you are making an investment that can help you avoid more significant expenditure down the line. By doing this you also gain an experienced industry partner driven by real customer insight to deliver a Next Level Clean for your facility, in a sustainable manner!

Let's say you're considering buying a cheaper, low-quality product or system that costs less upfront. While it might seem like a cost saving option initially, it can end up being more expensive in the long run.

Here are some considerations worth thinking about.

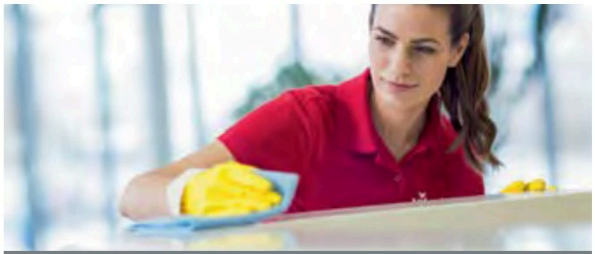

- Low quality products may incur in potential health and safety risks, that can lead to higher costs in the long run, including medical expenses, increased labour, and potential legal liabilities.
- Lower priced offerings tend to have lower durability and may require frequent repairs or replacements.
- Over time, the accumulated costs of repairs or replacements could be higher than the initial savings you made by choosing a cheaper option and ultimately exceed the budget with a negative impact on the P&L.

So, avoid the "buy cheap, buy twice" scenario!

On the other hand, when you invest in high quality FHCS Professional cleaning systems and solutions, you're not only investing in quality and longevity, but you're also making a wise financial decision that will impact your P&L positively.
Here are just some of the benefits:

- High-quality cleaning products designed to be more effective and efficient, reducing the risk of repetitive strain injuries and musculoskeletal disorders among cleaning staff.
- High-end cleaning products certified to be effective in remove 99.99% of bacteria and viruses, creating a healthier and safer environment.
- A comprehensive offer of sustainable products made from recycled and natural raw material that lower our carbon footprint and contribute to a more sustainable future.

So, by Spending to Save wisely now with FHCS Professional, you'll be saving money in the future and ensuring better overall value for your investment.

WIPING

MICROFIBRE CLOTHS

Nothing cleans deep like microfibres. One wipe removes both grease and fingerprints, with no scrubbing or drying afterwards.

How? The ultrafine microfibres literally scrape and absorb dirt from the surface, leaving behind nothing but tiny water droplets. You save time and money, especially since you can do the job with a minimum of chemicals – or none at all.

MICROFIBRE DURABLE CLOTHS

r-MicronQuick

Revolutionary new technology of microfibre production leading to finest split microfibre. Durable and washable cleaning cloth. The cloth is made from 70% recycled micronfibres, which achieve superior cleaning performance even in microscopic structures.

- Streak-free and lint-free
- Up to 99.99% Bovine coronavirus removal from vinyl‡
- Made of 70% recycled fibres
- Highly durable with up to 400 wash cycles*
- Certified for 99.99% virus and bacteria removal†

SEMI-DISPOSABLE ALL-PURPOSE CLOTHS

Non-woven all-purpose cloths feature a dense layer for high absorbency and easy rinsing, ensuring freshness and hygiene with every use. Unlike woven cloths that trap dirt in their fibres, non-woven surfaces allow dirt to be rinsed away easily, significantly reducing bacteria and germ growth. This keeps the cloth fresher for longer, while the high fibre density boosts capillary action and absorbency.

SEMI-DISPOSABLE ALL-PURPOSE CLOTHS

Contractor Extra Thick Wipes on a Roll

Spunlace extra thick wipes have a higher GSM for increased absorption and durability. Available with easy-to-tear perforation lines for your quick drying tasks. Can be used in accordance with HACCP guidelines.

SpillEx. Easy, hygienic spill management

SpillEx is a disposable, super-absorbing floor cloth that quickly absorbs and holds liquid spillages, transforming them into a gel to prevent dripping and facilitate easy disposal.

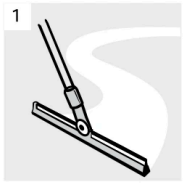

SpillEx can solve the following problems:

- Contamination and infection risks from blood, urine, or bodily fluids in operating theatres and aged care.
- Slip hazards and potential legal costs from spilled soft drinks in fast-food restaurants or smashed bottles in supermarkets.
- Contamination of clean water when using a bucket and wringer for cleaning spills.
- Fast and efficient removal of a wide range of water based spillages from hard floors

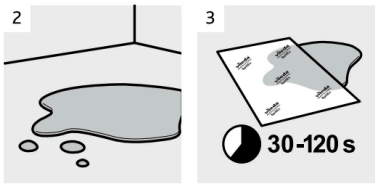

Bonds the liquid and contaminants safely, no dripping

Collect spill

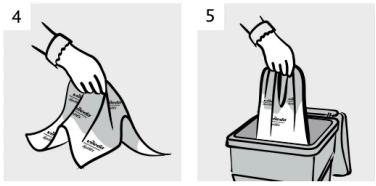

1 Collect the spill with the Squeegee in one area

Place and absorb

2 – 3 Place SpillEx over it, let it absorb and remove after a few minutes

Pick and dispose

4 – 6 Any broken glass or similar, can be removed with dustpan

FLOOR CLEANING

All sites vary in size, traffic, and health requirements; thus, no single floor cleaning system suffices. FHCS Professional provides a range of sustainable, durable, and single-use solutions to fit your needs. From Express MAX and Sprint systems to bucket and press UltraSpeed Pro, selecting the right system enhances performance, ergonomics, reduces costs, and supports sustainability goals.

SPRINT V FLAT MOPPING POCKET SYSTEM

Push your cleaning operation to next level efficiency. Sprint V is a special mop frame designed for 40cm pocket mops. It offers great handling, is extremely manoeuvrable and fits a wide range high-performance mops.

You no longer need to pick up a dirty mop – just stand upright, push the button, and release it – it's so easy that you can even skip the extra training. Instead, you can instantly increase cleaning speed on all surfaces, attach and detach mops in an upright position, and seamlessly manoeuvre the extra-light frame in and out of corners.

FLAT MOPPING POCKET SYSTEM

Sprint V System

The V shape allows the frame to slip effortlessly into mop pockets, while the push button mechanism eliminates the need for bending to attach or detach the mop. Sprint V enhances cleaning speed across all surfaces and its flat design enables efficient coverage of large areas, even in spaces with abundant furniture.

- Easy to manoeuvre and smooth-running
- Touch-less mop release into the laundry bag
- V-shaped frame slips smoothly into the mop pockets
- Enhanced floor contact for impeccable cleaning performance

CODE	OLD CODE	DESCRIPTION	SIZE (CM)	COLOUR	PIECES/PACK	PACKS/CASE	APN

ULTRASPEED PRO

UltraSpeed Pro is the most up to date, best performing flat mop bucket and press system on the market. It is so easy to use it needs no training and is adaptable to suit all sites.

Start with the single bucket system for general floor cleaning or add a second bucket onto the chassis and you have a double bucket system for mopping larger areas. If you want to fulfil more cleaning tasks you can use the second bucket to carry chemicals, cloths, paper etc.

Whatever the cleaning requirements, UltraSpeed Pro will dramatically raise your standards in speed, performance/costs, versatility and ergonomics.

ULTRASPEED PRO

UltraSpeed Pro Kits

Ultra Speed Pro is the most up to date, best performing flat mop bucket and press system on the market. It is so easy to use it needs no training and is adaptable to suit all sites. Ready to Go kits contain mop system, wringer, mop frame, mop, push bar and a telescopic handle.

- Fast wringing, twice as fast
- Efficient press releases up to 50% more water
- Floors dry faster, reducing slip hazards
- Hygienic - no hand contact with mops or solution
- Fastest bucket and press microfibre mopping system
- Easy to use, no training needed

CODE	OLD CODE	DESCRIPTION	SIZE	COLOUR	PIECES/PACK	PACKS/CASE	APN

UltraSpeed Pro Second Bucket

Ultra Speed Pro Easily converts single bucket systems into double bucket. Allows double bucket cleaning with the press in the back or middle of the buckets. Unique front and back profile results in no water drips between buckets during wringing.

- Can be used as a storage bucket on single bucket systems
- Easy to put on and replace
- 8 l usable water capacity
- Bucket is made from recycled material (>50% r-PP)

CODE	OLD CODE	DESCRIPTION	SIZE	COLOUR	PIECES/PACK	PACKS/CASE	APN
147594	-	ULTRASPEED PRO SECOND BUCKET	8		10	10	4023103184886

UltraSpeed Pro Press

The UltraSpeed Pro press is fast and efficient. Wringing takes 12 seconds on average, 50% faster than other systems. It removes over 40% of the solution from the mop, enhancing cleaning results. This reduces strain on cleaners, shortens drying times, and minimises slip hazards, keeping areas usable.

- Innovative press lever controls mop wetness
- Easy attachment and removal of the press for filling and cleaning after use
- Integrated handle holders securely fix mop handle in place when not in use
- High back allows easy entry of mop

ROLLER WRINGER BUCKET

The DuraClean® Roller Wringer Bucket, an Australian Design Award winner, undergoes rigorous testing to meet commercial cleaning standards. With a 15-litre capacity, it is lightweight and features non-marking castors for easy movement. Constructed from durable, chemical-resistant plastic, it is hygienic and rustproof. A non-slip foot pedal ensures a secure grip while wringing, and a comfort grip handle simplifies transport. For larger mops, the DuraClean® Ultra Bucket has a 16-litre capacity and a wide mouth. It includes an ambidextrous foot pedal, full-width foot pad, and rubber anti-skid grip for optimal use, along with a pouring spout, a gripping base, and a removable handle clip. **See our complete bucket range next page.**

MOP WRINGER BUCKETS

Wringer Bucket Duraclean

This 15L Oates DuraClean bucket uses sliding roller wringer tech for ergonomic benefits. Lightweight, with non-marking castors, it's chemical-resistant. Features a non-slip foot pedal, comfort handle, wide mouth, spout, holding grip, removable handle clip, and anti-skid grip.

- Heavy duty plastic is lightweight, hygienic and rustproof
- Ergonomic, easy action plastic wringing system with non-slip foot pedal
- Non-marking castors provide greater manoeuvrability

MOP HEAD REFILLS

Oates DuraClean® mops are the professionals' first choice due to their unique textile blend yarn, combining durable synthetic materials with absorbent natural fibres. This design performs optimally without a break-in period and minimises tangling and linting. DuraClean® mops come in two shapes for different needs: angled tail banding for easy wringing and round mops for smooth navigation. Butterfly cut mops provide extra floor coverage, making them ideal for heavy-duty commercial cleaning tasks in complex layouts.

MOP HEAD REFILLS

Duraclean String Mop Head Refill

DuraClean mops use a unique textile yarn blend, in production for over 100 years. Synthetic fibres enhance strength and minimise shrinkage, ensuring durability for heavy-duty commercial cleaning. Natural fibres improve absorbency, providing immediate, top-quality performance without a 'break-in' period.

- Exclusive synthetic blend yarn for ultimate absorbency and cleaning performance
- Unsurpassed durability makes it ideal for all heavy duty commercial cleaning jobs
- Ideal for all heavy duty commercial cleaning jobs

Duraclean Round Cut Mop Head Refill

Oates DuraClean mops use a unique textile yarn blend produced for over 100 years. The loop-end yarn minimises tangling and linting, and the angled tail band allows easier wringing by preventing fibres from getting caught in bucket rollers. This proven technique ensures excellent professional cleaning performance.

- Premium textile blend yarn
- Round shape and straight tail banding for greater floor coverage
- Looped ends prevent tangling and linting

HANDLE MATRIX

Are you using the right handle for your cleaning tool?

Each handle in the Oates range, has been designed to match specific products for various applications. The following Handle Matrix simplifies the handle selection process based on the cleaning tool you have chosen.

To start, locate your cleaning tool in the first column of the blue table. The recommended handles are listed in the next two columns as either primary or secondary options. Locate the corresponding number in the Handle Key (yellow table), which provides a description and product code for your handle option.

HANDLE SELECTION

Handles are crucial components in professional cleaning products, ensuring that ergonomics and safety are maximized while mopping. They offer both functionality and durability. It's important to select a handle that matches your height. Generally, a 1.35m handle is suitable for individuals up to 6 feet tall, while those taller than 6 feet may benefit from a 1.50m handle to reduce back strain during mopping. For heavy-duty commercial tasks, always opt for a handle with a 25mm external diameter. FHCS Professional offers a variety of handles designed to meet specific needs and preferences. Aluminium handles are lightweight, strong, and resistant to rust, even with constant water exposure. Powder-coated steel handles provide high durability and resistance to wear and tear. Timber handles offer a natural, warm feel that is comfortable to hold. Explore our selection and choose the most appropriate handle for your job.

ALUMINIUM HANDLES

Duraclean Aluminium Handle

Oates Aluminium handles are lightweight, strong and will not rust over time when in constant contact with water. Size of 1.35m is suitable for a person up to 6 feet tall. The 25mm external diameter will make heavy duty commercial jobs easy to do.

- Duraclean Aluminium handle are HACCP approved
- Ideal for heavy duty commercial use

SQUEEZE MOPS

Oates Tilt-a-matic® Squeeze Mop is Australia's best-selling squeeze mop! It is specially designed with a unique patented tilting mechanism that allows you to mop under low objects such as coffee tables, lounges, and cabinets. Additionally, it features a replaceable scour dot to tackle stubborn spots.

This mop was specifically engineered to reduce the number of parts from its previous design by removing steel components and using polypropylene plastic instead, making it more recyclable, lightweight, and user-friendly. This change not only enhances the mop's functionality through increased strength and flexibility but also ensures the robust polypropylene does not rust and is more durable. Oates Tilt-a-matic® squeeze mops undergo rigorous testing in Oates laboratories to guarantee lasting performance.

SQUEEZE MOPS

Massive Four Post Squeeze Mop

The Massive Four Post Squeeze Mop features an extra thick sponge for greater absorbency and a wider sponge for increased floor coverage. It also includes an extra long scour for removing stubborn marks and a durable 22mm powder-coated steel handle, ensuring efficient and effective cleaning.

- Extra thick sponge for greater absorbency
- Wider sponge for greater floor coverage
- Extra long scour for removing stubborn marks

OUTDOOR BROOMS

Oates industrial plastic-backed platform brooms feature various combinations of bristle thickness and strength, specifically formulated to meet diverse commercial applications. Medium-stiff bristles effectively collect small to medium-sized particles, making them ideal for pathways and workshop floors. Durable, extra-stiff bristles efficiently gather large, heavy debris and are perfect for use on rough concrete, brick paving, and bitumen.

A blend of natural and synthetic bristles captures fine particles and minimises airborne dust during sweeping, making them suitable for workshops, factory floors, and industrial sites.

Oates Timber Backed Platform Brooms. Natural fibre bassine bristles effectively collect both small and large particles, making them perfect for pavers, cement, and hot bitumen surfaces. This unique mix of natural coco, java, and synthetic bristles excels at gathering fine dust and small debris. The blend of natural fibre and synthetic bristles reduces airborne dust during sweeping, ideal for smooth floors and factory use.

OUTDOOR BROOMS

Supreme Garden Broom

Outdoor brooms must endure heavy use, requiring strong, sturdy metal handles. A common problem is handles snapping at the joint or coming loose. Our outdoor brooms feature durable joints. Our range offers different types and firmness of bristles to suit any job.

- Ideal for concrete and paved areas
- Extra stiff dense bristles for heavy duty outdoor use
- 22mm powder coated steel handle

FLOOR SQUEEGEES

FHCS Professional squeegees can be used to push or pull liquids. The flexible EVA floor squeegees allow for cleaning of uneven surfaces, such as tiles, getting right into grooves and lower grout areas. This expedites drying time, leaving floors hygienically clean.

Our red rubber squeegees are extremely durable and grease resistant. Available in both timber back and rust resistant aluminium frame options these are ideal for use on large concrete surfaces.

ALUMINIUM BACKED SQUEEGEE

450mm Aluminium Back EVA Squeegee-Head Only

Floors in wet areas are sloped to direct water towards drains. To move liquid effectively, you need a squeegee that moulds to the floor shape and reaches into grout areas. Oates squeegees are designed to push or pull liquids on any floor type, reducing drying time and leaving floors hygienically clean.

- Flexible double EVA blade moulds to the shape of the floor and gets into lower areas of grout to clean uneven surfaces, like tiles
- Quick drying leaving floors hygienically clean

900mm Wooden Back Squeegee-Head Only

Floors in wet areas are sloped to direct water towards drains. To move liquid effectively, you need a squeegee that moulds to the floor shape and reaches into grout areas. Oates squeegees are designed to push or pull liquids on any floor type, reducing drying time and leaving floors hygienically clean.

- Highly durable grease resistant rubber on sturdy wooden frame
- Ideal for pushing and pulling liquids on large concrete surfaces

MORACRYLIC DUST CONTROL MOPS

Moracrylic mop fibres are strong, resilient, and dimensionally stable, maintaining their shape and durability during commercial use. They resist damage from chemicals, solvents, moths, and mildew, and are non-allergenic. With high abrasion resistance, they suit rough surfaces.

The soft fabric is gentle on timber floors. Their lightweight design allows for easy handling, making them a preferred choice for industrial cleaners when mopping large areas. Moracrylic mops are easy to maintain, machine washable in warm water (up to 40 degrees Celsius), and can be tumble dried on a low setting.

MORACRYLIC METAL FRAMES

Moracrylic Mop-Metal Frame

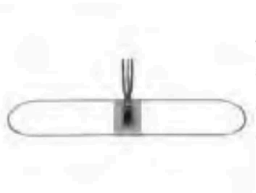

Metal frame with swivel socket for easy manoeuvring

- Sturdy metal frame swivels into hard-to-reach places
- Highly resilient and durable Moracrylic fibres capture dirt, lint and dust
- 25mm powder coated steel handle

OriGO FASTER
T8 - 6. OG

THE NEW ORIGO 2

Today, trolley systems are expected to do more than carry cleaning products and tools. Origo 2 rises to meet this challenge with new innovative features and seamless digital integration – all designed to offer you greater safety and connectivity, improved hygiene and higher efficiency.
In short: perfect, validated cleaning results.

Icon information page 2

ORIGO FURTHER

EFFICIENCY

Intuitive, faster cleaning

- Satellite trolleys: waste, pre-prepared or bucket & press
- Mop and storage boxes, compatible with all pre-prepared mops and equipment
- Divider allows dosing of a full or half box of mops to save chemicals and laundry
- Vertical tool storage for up to four mops of any width (25 cm to 75 cm)

HYGIENE

Cleaner operational and process management

- Hands-free lid opening for safe, clean operation
- Clearly defined sections keep waste well away from clean and used materials
- Protective lids on all buckets, boxes and trays keep contents clean
- Full colour coding of all elements
- Optionally split waste and used materials into 1, 2 or 3 sections

SECURITY

Innovative design increases safety and peace of mind

- Secure your cleaning products and protect your clients' premises
- Lockable doors and top lids prevent unauthorised access to contents
- Hidden safety compartment for employees' personal items
- Soft-touch bumpers: no scuff marks and less damage to walls
- Foldable waste/used extension: even easier to store after use

CONNECTIVITY

Seamless integration of cleaning tools and digitally connected devices

- Supports tablets, RFID tracking etc.
- World's first trolley featuring an in-lid tablet holder
- See and respond to push notifications directly, without opening or lifting the lid
- Compatible with any tablet and workforce management software
- Secure, fully lockable tablet storage to prevent theft

SUSTAINABILITY

Taking responsibility for our environment

- Bucket and box range made from 50 % recycled plastic meets international guidelines
- All elements of the trolley suitable for post-use recycling
- Recycled bucket and box range are black making them easy to identify
- Innovative logistics reduce CO_2 emissions from transportation

CUSTOMISATION

Because every space, task and employee is unique

- All buckets, boxes and trays can be positioned anywhere
- Smart, integrated rail system with multiple height options for storage
- Seven different trolley types, each configurable to your specific requirements
- Compatible with all pre-prepared, bucket & press and waste systems

Icon information page 2

ORIGO 2 CONFIGURATOR

Because every space, task and employee is unique

Individualise your trolley on a daily basis – simply choose the positions that work for you.
Buckets, boxes and waste can be rearranged very easily.

- Configure trolleys starting from one of six Skeletons
- Drag and additional components to create final trolley: buckets, boxes, lids, top lids, doors, etc.
- Copy and paste BOM and email to get a quote

New functions available soon:

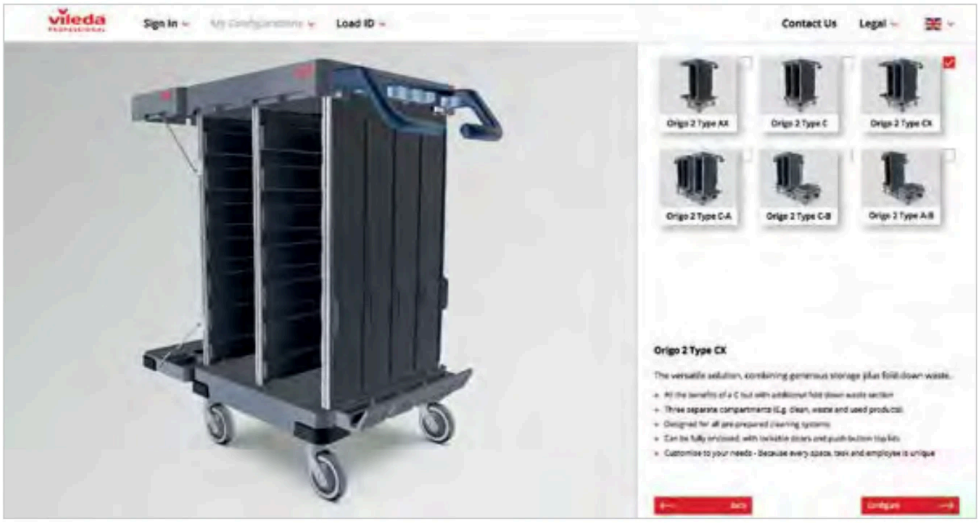

- Active registration procedure for customers
- 3D Visualised open/closed doors and top lids

Configure your own https://myorigo2.vileda-professional.com

CONFIGURE YOUR OWN

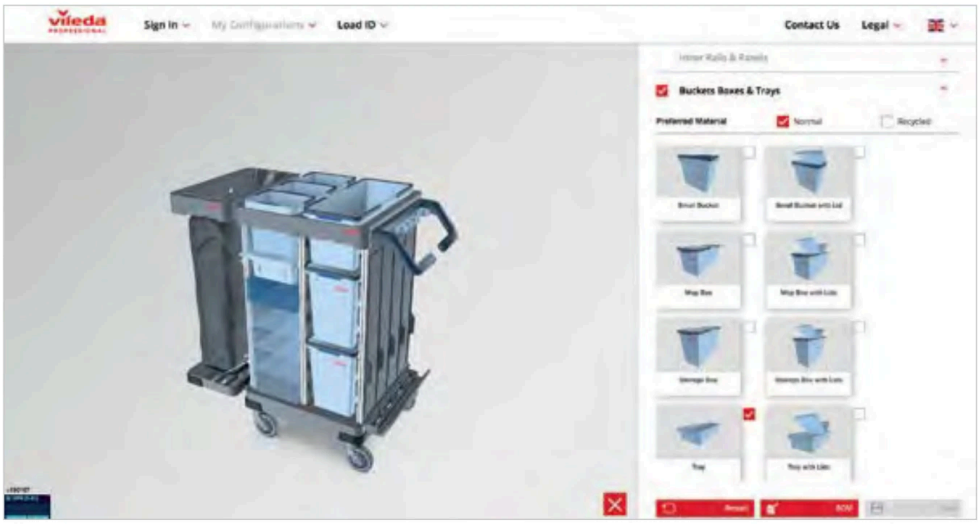

The Origo 2 online Configurator offers an easy step-by-step solution to customising your own Origo 2.

1 Choose your trolley model

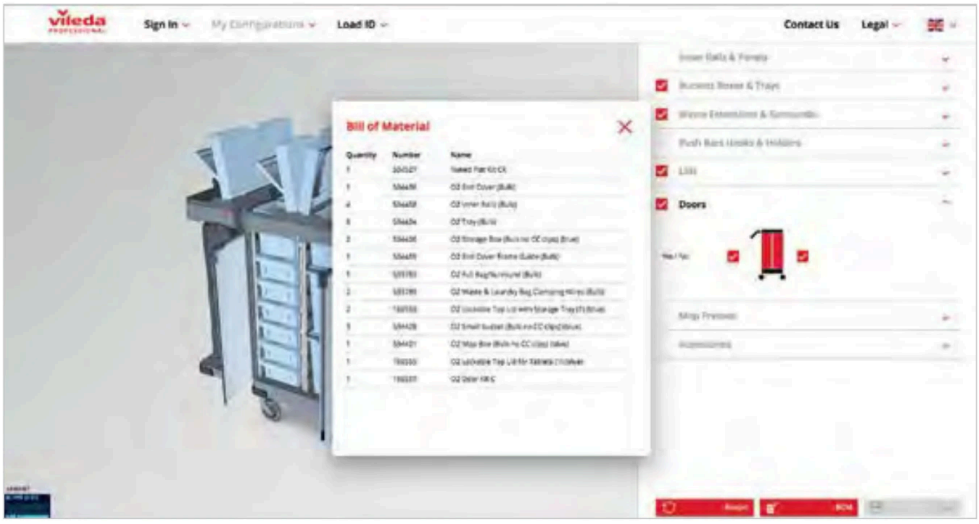

2 Add components

- Inner Rails & Panels
- Buckets Boxes & Trays
- Waste Extensions & Surrounds
- Push Bars Hooks & Holders
- Lids
- Doors
- Mop Presses
- Accessories

3 Review your Bill of Material list and submit for a quotation

Icon information page 2

FINISHING YOUR TROLLEY WITH CUSTOM DOOR PRINTING

Step to custom print doors

- High res. image to FHCS marketing prof. dept.
- Artwork definition & customer approval
- Lead time 15 working days
- No Minimum Order required

MICROFIBRE DUSTERS

Flexi Dust Wand

The flexible head cleans hard-to-reach areas like blinds, shelves, under fridges, ceilings, and fans. Attach the duster head to the extendable handle for handheld or long-reach dusting. Ideal for allergy sufferers, it's gentle on furniture, mirrors, and cars. It attracts dust and fine particles and is easily rinsed.

- Flexible microfibre dust wand bends into shape to effectively clean in narrow and hard-to-reach places
- Removable extension handle for alternating between hand held dusting and long handled dust wand
- 2 sided microfibre sleeve ideal for capturing dust, dirt and fine particles with no chemicals required

SCOURERS

Many scourers look similar, but FHCS Professional stands out in quality and results. Poor quality scourers wear quickly, requiring more effort to clean. Each fibre in a FHCS Professional scourer is coated with grit and resin for superior, long-lasting cleaning. The strong resin-to-fibre bond ensures even wear, delivering consistent performance. Additionally, our scourers are made from nylon, which does not rust, splinter, or clog, making them easy to rinse clean.

EFFECT OF PURACTIVE WAVE-SHAPE

PurActives special coating easily lifts stubborn grime whilst being gentle on all hard surfaces. It cleans three times more effectively than traditional non-scratch scourers and is more gentle on surfaces than a traditional abrasive scourer.

Instead of scratching the dirt away like a traditional scourer, the special wave shaped surface structure lifts the dirt from the surface without scratching resulting in time savings through faster more powerful cleaning.

NON-SCRATCH

Puractive

PurActives special coating easily lifts stubborn grime while being gentle on all hard surfaces. It cleans three times more effectively than traditional non-scratching scourers and is gentler on surfaces than traditional abrasive scourers.

- The open soft white scourer surface is non-abrasive, making it ideal for non-scratch cleaning on all surfaces
- Ideal for use in bathrooms, kitchen, etc.
- Foam backing protects fingers
- Colour coded to help prevent cross-contamination
- Easily lifts grease and grime

STAINLESS STEEL

Inox Scour 'N' Sponge

The INOX Scour N Sponge combines the cleaning power of a stainless steel ball with the flexibility of a sponge to clean pan edges. The unique INOX yarn is knitted for increased durability and longevity, making it ideal for cleaning stainless steel pots, pans, dishes, cutlery, and coffee machine steam wands.

- Heavy duty cleaning performance
- Unique design holds more water and detergent foam
- Easily removes stubborn burnt-on and baked-on grease and grime
- Durable and holds shape longer than average stainless-steel balls

GRIDDLE SCOURERS

The complete system for tough cleaning jobs in all commercial kitchens. The Griddle system is flexible and easy-to-use. The lightweight, ergonomically designed plastic handle makes it easy for users to apply the correct amount of pressure for efficient cleaning with both the griddle screen and griddle pad. The solid, high-quality construction continues with the metallic plate in the griddle holder and as every part of the system is replaceable, you can count on long-lasting performance. Additionally the high performance griddle pad fulfills HACCP regulations.

GRIDDLE PADS

Griddle Pad Screen

Oates Hot plate cleaning system allows you to remove all that built up grime from hot plates from commercial kitchens to back yard BBQs. It can be used with a pad alone or with griddle screen for extra tough jobs.

- Screen can be used directly on surface to prepare it for cleaning
- Use screen in conjunction with GP-721, GP-722 or GP-725 when placed on GP-723 Screen Holder

CODE	OLD CODE	DESCRIPTION	SIZE (CM)	COLOUR	PIECES/PACK	PACKS/CASE	APN

ABOUT THE COVER PAINTING

About our cover, the painting 'Dinkie is Thom's Friend'

Artist Statement

"This is a portriff [portrait] of the lady who cleans the bathrooms at Studio A. Her real name is Subita but I call her Dinkie Duck because I like to rename people and places. Whenever she appears, wheeling her trolley, I always say, 'Oh no, not my friend Dinkie Duck!' and I tell everyone at the studio, 'Guess who's here, it's Dinkie!' It sounds like I don't like it when she arrives, but I am just kidding. She is my friend. I wanted to paint Dinkie, and Woody [Studio A principal artist Emma Johnston] helped me ask her. I wanted to do a big painting of Dinkie. As big as real life." – Thom Roberts, 2024

Thom was finalist with his painting "Dinkie is Thom's Friend" in the Sir John Sulman Prize in 2024, awarded to the best "subject or genre painting".

About Studio A

Studio A is a Sydney-based social enterprise and arts company that makes great art and tackles the barriers artists with intellectual disability face in accessing conventional education, professional development pathways and opportunities needed to be successful and renowned visual artists.
