TOMKIN®

CELEBRATING 50 YEARS

CATALOGUE VOLUME 3

TOMKIN®

THE MARK OF HOSPITALITY

“

Hospitality is more than service — it is the shared pursuit of creating something meaningful together. At Tomkin, we are proud to support every meal prepared, every plate served, every moment made.

” Alex Dicu
CEO

“WELCOME TO THE TOMKIN FAMILY TABLE”

As Tomkin marks 50 years of service, this milestone is more than a celebration of time — it is a recognition of the people and partnerships that have brought us here.

Since 1975, we have stood alongside Australia’s most dedicated hospitality professionals. From bustling kitchens to refined dining rooms, it is your creativity and commitment that continue to shape what hospitality means — and challenge us to raise our standards every day.

What began as a small, ambitious business has evolved into a national partner for chefs, restaurateurs, caterers and venue operators. Through changing trends and rising expectations, your needs have shaped our direction — and our purpose.

Today, we remain proudly focused on curating dependable, design-led solutions that support the daily rhythm of service and bring your vision to life — with three pillars at our core:

Product Specialists — Purposefully selected, technically informed products for modern food service.

Value for Money — Quality tools that deliver commercial performance across premium and mid-tier segments.

Excellence in Service — A hands-on, partnership-led approach from selection to post-sale.

To our customers and our team — thank you! Your loyalty, trust and care are the foundation of everything we do.

What will the next 50 years look like? A future built on heritage, driven by innovation, and shaped by you.

Alex Dicu
CEO

Why Tomkin?

Since 1975, Tomkin has been the trusted partner of hospitality professionals across Australia, offering a carefully selected range of front- and back-of-house essentials. We believe food and beverage service is an art—and our products are the tools that bring that artistry to life.

With **value for money** at the heart of what we do, every Tomkin product is designed to deliver enduring quality and aesthetic appeal without compromising on performance or price. Built to thrive in demanding commercial environments, our range is backed by comprehensive product guarantees.

As **product experts**, we take pride in understanding the needs of chefs, restaurateurs, and hospitality teams. Our deep industry knowledge, combined with long-standing global partnerships, allows us to source and deliver innovative, high-performing solutions tailored for every hospitality setting.

We also believe great products deserve **excellent service**. That's why our experienced nationwide team—across showrooms, account management, project coordination and customer care—is here to offer expert advice, dependable supply, and responsive support at every stage.

Sustainability Pillars

We are committed to becoming a champion for change in our industry

By holding ourselves accountable and empowering our customers, we aim to support smarter, more sustainable product choices. From packaging to supply chains, every step forward matters — and we're excited to share our sustainability journey with you.

ENVIRONMENT
Beyond sustainable materials, we've implemented company-wide strategies to reduce our carbon footprint:
- Transition to **cloud-based systems**, significantly lowering power consumption and eliminating the need for physical servers
- Use of **FSC-certified, 70% recycled paper** for office printing and catalogues
- Progressive improvements to internal systems, making operations more energy efficient
- Shift toward **100% plastic-free retail packaging**

RESPONSIBLE PACKAGING
We're actively reducing our environmental footprint through smarter packaging solutions:
- Use of recyclable and biodegradable materials
- Paper packaging tape
- Recycled board in cartons
- Void fillers that reduce reliance on plastic
- Vegetable-based biodegradable inks

DIVERSITY AND INCLUSION
We are dedicated to fostering a workplace culture rooted in Diversity, Equity, and Inclusion. By embracing each individual's unique background, experiences, and perspectives, we're building a team environment where everyone feels they truly belong — and can thrive.

ETHICAL SUPPLY
Operating with integrity and responsibility is central to our supply chain:
- Zero tolerance for discrimination of any kind
- Commitment to gender equality across operations
- Strict prohibition of child, forced, or bonded labour under our global labour policies
- Ongoing improvement of working conditions within our supply network

COMMUNITY
We believe in making a difference beyond business. Tomkin and our team are proud supporters of diverse community initiatives and meaningful charity partnerships that drive positive social change.

This catalogue has been printed onto a paper stock that is manufactured from timber sourced from sustainable resources.
Both our printer and paper manufacturer is accredited to the highest international environmental standards.
We have made all conscious efforts to reduce our carbon footprint to produce this catalogue.

Our Brands

Representing more than 60 brands and covering 12 core hospitality supply categories, we are proud to share our 50 year journey with you.

Expert Tips
Understanding Cutlery Steel Types

Cutlery selection requires both aesthetic and functional consideration. Use our handy guide below to help you select the most suitable range for your establishment.

18/10 Stainless Steel

The gold standard in premium cutlery, 18/10 stainless steel contains 18% chromium and 10% nickel. This composition provides exceptional resistance to rust and corrosion while delivering a brilliant, mirror-like finish. 18/10 is ideal for high-end dining environments where both aesthetics and longevity are paramount.

Notable Tablekraft ranges include:

Bogart
Offers bevelled contours and an all-mirror finish, bringing a regal touch to the table.

Gable
Known for tear drop-shaped handles and deep bowls, radiating timeless elegance.

Florence
Combines attractive curves with a well-balanced construction, perfect for modern settings.

18/0 Stainless Steel

Containing 18% chromium and no nickel, 18/0 stainless steel is more cost-effective while still offering good durability. Its magnetic properties make it suitable for high-turnover venues and compatible with commercial dishwashers. Tablekraft's Aristocrat and Cafe ranges are popular choices in this category.

Stainless Steel

Primarily used in knife blades, 13/0 stainless steel is designed for edge retention and strength. The lower chromium and lack of nickel allow the steel to be tempered and sharpened effectively, delivering a keen cutting edge ideal for steak knives and other specialty utensils.

CHOOSING THE RIGHT STEEL

The type of steel you choose depends on the setting and service requirements. For prestige, polish, and long-term use, 18/10 is a top choice. For practicality and affordability, 18/0 fits the brief.

Finally, for knives, 13/0 provides the sharpness needed for smooth service. Tomkin offers a comprehensive range of cutlery crafted with these steel types, combining form, function, and lasting quality — so you can set the table for success, every time.

Expert Tips

Table Etiquette and Place Settings

Setting up cutlery precisely shows professionalism and elevates the guest experience. Use our guide for key steps and best practices in hospitality-standard table settings.

Essential Cutlery Components

KNIVES
Placement: Place knives to the right of the plate, with blades facing inward toward the plate.

Order: Arrange knives from outside in, matching the sequence of courses.

Special Knives: Add steak or fish knives as needed, placed in order of use.

FORKS
Placement: Arrange forks to the left of the main plate, in order of use from the outside in (outermost fork for the first course, innermost for the main course).

Types: Include salad, fish, and dinner forks as required by the menu.

SPOONS
Placement: Spoons go to the right of the knives, with the bowl facing up.

Types: Include soup spoons or dessert spoons as dictated by the menu.

DESSERT
Placement: Place dessert fork and spoon horizontally above the main plate, fork handle left and spoon handle right.

Cutlery Type	Placement Rule	Purpose
Dinner Fork	Left of plate, closest to plate	Main course
Starter Fork	Left of dinner fork, outermost	Starter or salad
Dinner Knife	Right of plate, closest to plate	Main course
Starter Knife	Right of dinner knife, outermost	Starter or fish
Soup Spoon	Right of knives, outermost	Soup course
Dessert Spoon	Above plate, handle right	Dessert
Dessert Fork	Above plate, handle left	Dessert

What is Vitrified Porcelain?

Firing porcelain at a high temperature over 1200°c produces a dense, non-porous, and long-lasting material with glass-like characteristics.

This density also resists scratching, stains and chips from impacts.

Tablekraft

Urban Serve

This collection boasts footed stands, irregular platters, walled plates and innovative sauce solutions - perfect for impressive event buffets, bustling bakeries, chic cafes and beyond.

Expert Tips

Understanding Dinnerware Materials: What's Best for Your Table

Selecting the ideal dinnerware is more than just about looks—it's about finding the right material that ensures durability, functionality and style.

At Tomkin, we offer a diverse range of dinnerware materials, each designed to meet the needs of various dining settings. Here's a guide to understanding the most popular materials.

Porcelain

A staple in both casual and formal dining, porcelain is highly valued for its durability, strength, and classic white finish. Fired at high temperatures, it's chip-resistant, non-porous, and easy to maintain, making it an excellent choice for restaurants and hotels. Tablekraft's "Classic White" porcelain collection embodies elegance while being resilient enough for busy environments.

Stoneware

For a rustic, textured appearance, stoneware is a popular choice. Fired at lower temperatures, it offers a more earthy look with matte glazes and is heavier than porcelain. Ideal for laid-back venues, Tablekraft's "Rustic Stoneware" collection enhances a warm, natural aesthetic, perfect for cafes and informal settings.

Bone China

Bone china is the epitome of elegance combined with strength. Made with bone ash, it is lightweight yet resilient. Tablekraft's "Deluxe" bone china offers a refined, translucent look, making it perfect for upscale dining or special occasions. Despite its delicate appearance, bone china is durable enough for daily use and dishwasher safe.

Melamine

For practical, high-traffic environments, melamine is a durable, shatter-resistant material that mimics ceramic's appearance. Lightweight and resistant to chips and cracks, it's ideal for buffets or outdoor dining. Tablekraft's melamine range blends style and durability for venues that require long-lasting performance.

Each material in Tomkin and Tablekraft's collections brings unique benefits, allowing you to tailor your dinnerware to fit your venue's specific style and needs, whether you're hosting casual meals or formal events.

Bauscher Dinnerware

A modern classic, Bauscher Purity combines soft flowing lines with geometric profiles, crafted from Noble China with an ultra-hard glaze.

Made from durable vitrified porcelain which is chip and scratch resistant

Design is inspired by the World heritage Alhambra Palace, the pearl of Andalusia

Bonna has a high aluminum oxide content and a special edge design, which makes it one of the most edge-impact resistant porcelains in the hospitality space

Bonna
Diamond

Strong vitrified white porcelain in multi-use banquet shapes, delicately patterned.

SERAX

Serax Dinnerware

Serax has graced the tables of some of the best restaurants around the world. Created in Belgium by passionate and renowned designers, Serax collections are carefully crafted using traditional methods with the modern table in mind.

Serax Terres De Reves

Serax
Terres De Reves

The Terres De Reves collection from Serax references European pottery traditions, a durable stoneware that is hand-made with a reactive glaze across muted tones.

Expert Tips

Australian Coffee Sizing Guide

In Australia's vibrant coffee culture, consistency matters. Selecting the right cup size helps streamline operations, control portioning and enhance the customer experience.

Use this guide to match your service style to the most common coffee formats used nationally.

Coffee Style	Typical Serve	Typical Volume	Common Cup Size
Espresso (Short Black)	Single shot of coffee	30ml	60–90ml
Ristretto	Shorter, more intense than espresso	15–20ml	60–90ml
Macchiato (Short)	Espresso with a dash of milk	30–6ml	90ml
Long Black	Espresso over hot water	180–22ml	220–250ml
Flat White	Espresso with steamed milk, thin foam	180–22ml	220–250ml
Latte	More milk than a flat white	200–30ml	250–350ml
Cappuccino	Espresso with milk and thick foam, cocoa on top	200–25ml	250–300ml
Mocha	Espresso with chocolate and milk	250–30ml	300–350ml
Piccolo Latte	Single shot with a small amount of milk	90–12ml	90–120ml
Affogato	Espresso over a scoop of vanilla ice cream	60–12ml	Glass or dessert cup
Iced Coffee	Espresso over ice, often with milk/ice cream	350–50ml	Tall Glass

Note: Volumes vary by region and café preference. Use this guide to standardise service or align with customer expectations.

Take advantage of our coloured **Brew Est 2015** ranges by incorporating them with branding, or experiment by mixing and matching different colourways.

Need help choosing the right size or range? Visit **tomkin.com.au** or contact your local distributor for full collection.

BOROSILICATE GLASS · GUEST READY · HAND WASH PREFERRED

Made from borosilicate glass which is contains boron trioxide, and creates a high resistance to thermal shock. This means it will not crack under extreme temperature changes, like adding boiling water.

Expert Tips
Drinkware Care & Maintenance

Correct storage and stacking, washing, drink preparation, and serving can minimise glass breakage:

Top 3 reasons why glass breaks:

1. **Stacking glasses** which are not designed to be stacked
2. **Thermal shock** when ice is added to a glass that has not reached room temperature after washing
3. **Mechanical shock** caused by minute abrasions from contact with foreign objects such as cutlery and muddlers

Washing

- Rinse glasses as soon as possible after use and don't leave them soiled for long periods
- Use dishwasher racks designed for commercial use
- Stack glassware away from dinnerware and cutlery
- Ensure glasses don't come in contact with each other in glass racks

Drink Preparation

- Make sure glasses are at room temperature before using them, unless they're for serving hot beverages, in which case gently heat them first
- Pour ice into glasses using plastic scoops
- Keep glasses clear of taps and dispensers
- Ensure glasses don't come in contact with each other in glass racks

Service

- Make sure glassware is sparkling and without smudging before serving
- Never serve chipped or cracked glassware for safety reasons
- Avoid collecting more than one glass at a time to avoid glasses clashing with each other
- Hold glasses by the stem whether polishing or pouring

Storing

- Always store glassware in plastic, compartmentalised racks
- Make sure glasses don't touch at either the base or rim
- Don't stack glasses on top of each other unless they're in racks designed to do so
- Don't store glasses until they've cooled

Take advantage of our wash racking guide in the Storage, Cleaning & Janitorial section, which helps you to determine the compartment size and extender needs of your glassware. For more tips and tools to elevate your back-of-house performance, visit **tomkin.com.au** or chat to your distributor.

Stölzle Crystal Glassware

Extraordinarily clear with brilliant sparkle, Stölzle glassware is crafted in Germany from the finest raw materials, is resistant to breakage while exhibiting Refined Thin Style and laser-cut rims.

Japanese Inspired Glass

Stolzle's ultra-thin range, Kyoto Bar, is inspired by the slick, minimalist design of Japan and their love of spirit making.

Tumblers feature straight sides and thin bases, while stemware features a two piece, pulled stem construction with elegant bowls.

Stölzle Lausitz
born in fire

Wide bottomed bowls offers the wine space for development and ensures a harmonious taste experience

Stems are pulled from the bowl to create an elegant two-piece construction that resists breakage and feels seamless in the hand

The Ultra range features shorter stems that provide for a lower centre of gravity, meaning more stability and less breakages

Designed for sturdiness and strength, the hallmark Stolzle Solid Bottom Plate is a firm footed base that provides excellent balance without compromising design

Stolzle Ultra red wine and Bordeaux glasses

D-Still Drinkware

Crafted from premium polycarbonate, D-Still unbreakable drinkware offers the look and feel of glass with a lifetime guarantee against chips, cracks or breakage.

TRU-POUR™

Tru-Pour Barware

Tru-Pour believes simplicity is at the heart of every good design and understands the importance of accuracy, with Weights & Measures approved products providing peace of mind for your venue and clientele.

TRU-POUR Combo Measure and Polycarbonate Jigger range.

TRU-POUR
Barware

DISHWASHER SAFE | W&M CERTIFIED | RETAIL PACKAGED

Virtually unbreakable, polycarbonate jiggers are long lasting and provide mould-made accuracy.

Trusted by Professionals

TRU-POUR is the original, high-quality bar tool brand delivering precision with every pour.

Designed with tight seals and flat rims to eliminate spills and ensure perfect measurements.

TRU-POUR has launched new retail friendly packaging.

NMI Compliance

The National Measurement Institute employs inspectors to evaluate alcohol being sold - short measures could lead to fines of up to $222,000

Craster

Craster focuses on creating beautiful, intelligently designed products delivering exceptional foodservice experiences. Subject to lead time, Craster ranges can be arranged bespoke for your buffet displays.

LEAD TIME

Tomkin are proud to offer Craster products to order with a lead time of 14-16 weeks. Please visit our website or a showroom to learn more about our Craster offering, and enjoy a preview of some ranges below.

SCAN FOR FULL OFFER

Craster Tilt

Unique and flexible, Craster Tilt offers endless possibilities. Featuring multi-height metal frames, sleek display bowls and stunning plinths, this impressive range allows you to create a mixture of angles and height, adding depth and character to your display presentation.

Craster Flow

Craster Flow is a versatile range of stackable trays and buffet risers crafted around gastronorm sizing. Available in natural oak and walnut, black, white and marble, this collection is interchangeable and stackable, while also offfering heating and cooling technologies.

Cal-Mil

With over fifty years of family-driven innovation, Cal-Mil caters to the evolving needs of food professionals using a variety of sturdy woods, metals, acrylic plastics and upcycled materials.

LEAD TIME

Tomkin are proud to offer Cal-Mil products to order with a lead time of 14-16 weeks. Please visit our website or a showroom to learn more about our Cal-Mil offering, and enjoy a preview of some ranges below.

SCAN FOR FULL OFFER

Cal-Mil Camden

The contemporary Cal-Mil Camden collection showcases a skilfully crafted combination of black perforated metal and light oak accents, blending modern and industrial elements in an eye-catching design.

Cal-Mil Monaco

Cal-Mil's Monaco collection features striking black metal and exquisite gold elements, bringing a sense of drama and refinement to any buffet display or event.

Using Colour-Coded Kitchenware
HACCP Colours: A Guide to Food Safety

Red: Raw meat
Used for cutting uncooked beef, lamb, and other red meats.

Brown: Cooked meat
For slicing and preparing previously cooked meat products.

Blue: Raw fish
Designated for filleting or slicing raw seafood.

White: Dairy and bakery
Often used for cheese, bread, and pastries.

Green: Fruit and vegetables
Used for fresh produce like lettuce, tomatoes, and apples.

Purple: Allergies
Used for 'free-from' foods such as gluten-free bread or flour mixes.

Yellow: Poultry
Used for cutting uncooked chicken, turkey and other poultries.

Expert Tips

Understanding HACCP Chopping Board Colours: A Guide to Food Safety

In commercial kitchens and food preparation areas, HACCP-coloured chopping boards are an essential part of maintaining food safety and hygiene.

HACCP stands for **Hazard Analysis and Critical Control Points**, a systematic approach to identifying and controlling potential risks in food production. Colour-coded chopping boards help prevent cross-contamination, a key principle of HACCP, by assigning different colours to different food types.

Here's a quick guide to the standard HACCP chopping board colours and their uses:

Red: Raw meat
Used for cutting uncooked beef, lamb, and other red meats.

Blue: Raw fish
Designated for filleting or slicing raw seafood.

Green: Fruit and vegetables
Used for fresh produce like lettuce, tomatoes, and apples.

Yellow: Poultry
Used for cutting uncooked chicken, turkey and other poultries.

Brown: Cooked meat
For slicing and preparing previously cooked meat products.

White: Dairy and bakery
Often used for cheese, bread, and pastries.

Purple: Allergies
Used for 'free-from' foods such as gluten-free bread or flour mixes.

This colour system minimises the risk of bacterial transfer from one food type to another, especially from raw to ready-to-eat foods. For example, using the same board for raw chicken and salad could cause salmonella contamination, but colour-coding ensures clear separation and reduces this risk.

While some businesses may slightly vary the colour code to suit their operations, consistency and staff training are crucial. Proper cleaning and sanitisation after each use are also necessary to maintain hygiene standards.

In short, using HACCP chopping board colours is a simple yet powerful way to enhance food safety, support regulatory compliance, and build customer trust—especially in busy kitchens where hygiene can't be compromised.

Chef Inox

Gastronorm Pans

Store, freeze, cook or display with Chef Inox Gastronorm pans. Made from quality stainless steel, these classic pans are durable, long-lasting and dishwasher safe.

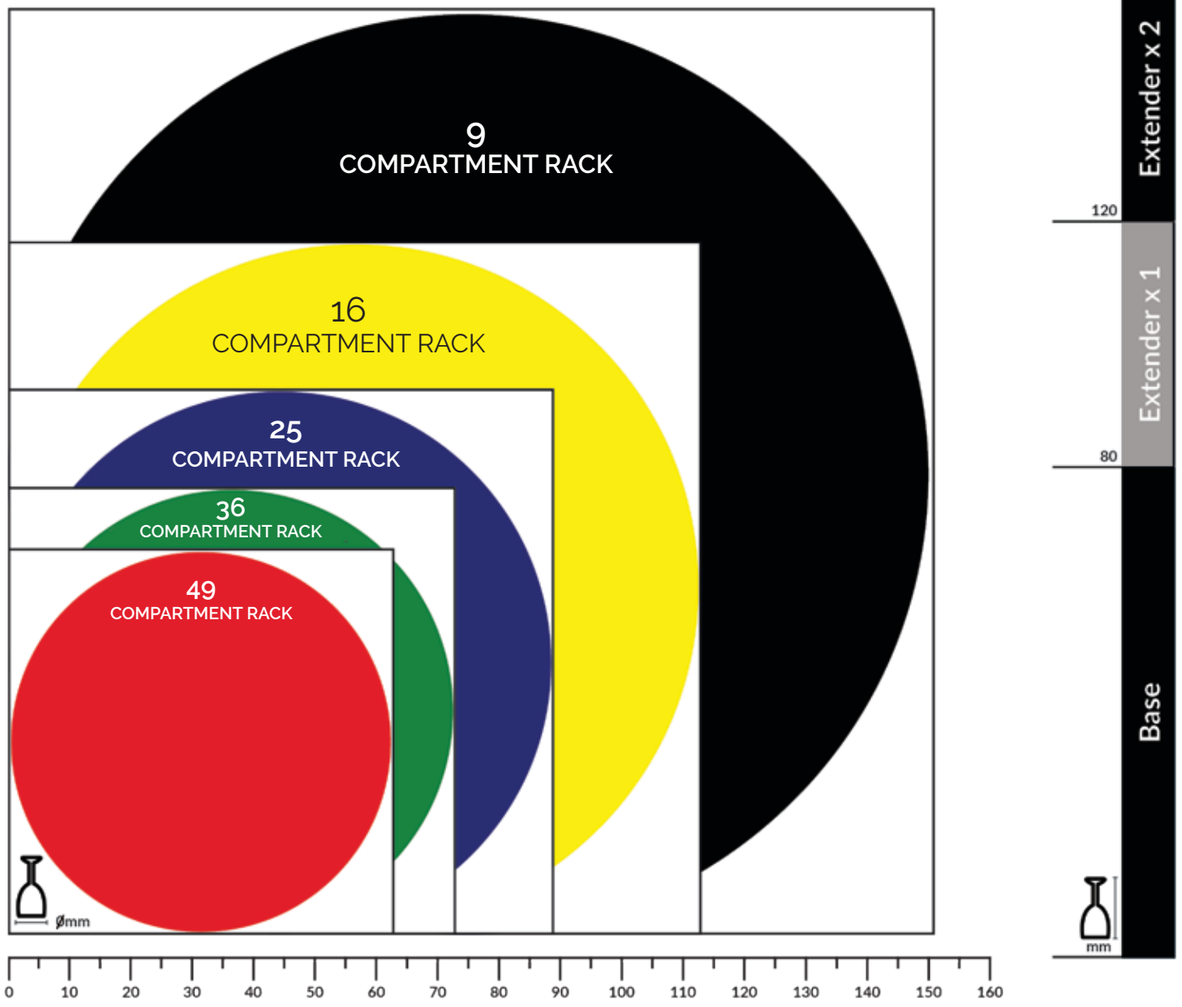
Expert Tips

Which Rack for Which Glass?

Use this handy guide to help understand how many compartments and how many extenders your rack will need to suit your glassware. These measurements are to scale, meaning that you can place your glasses against the circles to compare maximum diameter and beside the extender ruler for height.



Expert Tips

Load Commercial Glassware Dishwashers to Minimise Breakage

In busy hospitality environments, how you load glassware can be the difference between pristine service and costly breakages.

At Tomkin, we understand that performance matters—right down to the final rinse. Here's how to ensure your glasses come out clean, intact and ready to serve:

Select the right rack for the job

- Use designated glass racks that support the shape and height of the glassware.
- Select using our Glass Rack Selector
- For delicate stemware or crystal, opt for the top rack or a compartmentalised rack with pegs or holders. These options reduce movement and exposure to intense water pressure.

Load with Purpose

- Always position glassware upside down to ensure effective rinsing and faster drying.
- Tilt slightly on an angle to help water run off, reducing spots and pooling.
- Align the interior of the glass towards the spray arms to target the dirtiest areas.

Space Strategically

- Avoid contact between glasses—a little space prevents clinks, chips and cloudiness from blocked spray.
- Place taller items along the outer edges to prevent obstruction of rotating arms.
- Shorter vessels and tumblers can sit in the centre, ensuring even coverage.

Safeguard Your Investment

- Don't overcrowd. A full rack is good; an overfull rack is risky. Water must circulate freely for a consistent clean.
- Use stemware supports if available to secure finer pieces like wine glasses and coupes.
- Rinse off excess residue before loading to preserve dishwasher efficiency and water clarity during the cycle.

TIP FROM THE FLOOR

Your dishwasher is part of your service team. Treat it with the same care—clean filters regularly, check for proper detergent, and rotate racks to extend their lifespan.

For more tips and tools to elevate your back-of-house performance, visit **tomkin.com.au** or speak to your distributor.

Item No.	Product Name	Length
20772	Table Knife	167mm
20760	Table Fork	143mm
20753	Table Spoon	145mm

Did You Know?

Independent living cutlery is specially crafted to support the needs of the elderly and individuals with disabilities. Among other clever design features, the rounded handles offer a comfortable, ergonomic grip that reduces strain and improves control, making self-feeding easier and more dignified.
