It Started With Aluminium Foil

Confoil is a leader in food packaging, designing and manufacturing foil trays and containers, in a large array of shapes and sizes. Confoil offers a diverse range of products consisting of over 600 individual food packaging items. While foil trays and containers are the core of our business, we are innovating with new materials and products such as DualPak[®] and commercially compostable DualPakECO[®] pressed paperboard meal trays.

Confoil is a proudly 100% privately owned Australian family business. Being local means that we are able to be responsive to our customer needs, are guided by strict safety regulations, engage as an active part of our community and support the creation and continuation of local jobs.

THE SILVER LINING OF FOIL

- Aluminium as material can be recycled infinitely without loss of quality
- Aluminium recycling saves 95% of the energy needed for primary production
- Aluminium foil food packaging is lightweight - less material is used and transportation is more economical
- Aluminium provides an absolute barrier and prolongs shelf life for a variety of food products
- Aluminium withstands temperatures from -40°C to 350°C (200°C if lacquered)
- Aluminium can be customised with colour, print or embossing

OVENABLE

MICROWAVABLE

FREEZABLE

HEAT SEALABLE

CUSTOMISABLE

MICROWAVE GUIDELINES

- Remove lid or sealing film, place in centre of microwave plate and do not let tray touch walls
- Tray base should be mostly covered with food

Quality Assurance & Accreditations

HOW SAFE IS YOUR FOOD PACKAGING?

This question is central to everything we do, and we believe that our customers should have complete peace of mind when they use our products.

Confoil products are manufactured to the highest possible, globally recognised food safety standards. We are committed to creating our products with the utmost care, quality and consistency. Confoil are audited regularly by independent accreditation bodies as well as some of Australia's largest brands and are ISO and HACCP certified, ensuring has a food safety management system which has been assessed and meets the requirements of ISO 22000:2018, ISO/TS 22002-4:2013 and additional Food Safety System Certification (FSSC) (Version 6).

This certification ensures our products are reliable, safe, consistent and meet customer expectations. All processes used by Confoil in its approach to food safety are of the highest priority and are embedded throughout our operating and manufacturing sites. Our products are supplied to food and catering industries throughout Australia. Offshore, we also manufacture our products at our New Zealand site.

We were awarded ISO (International Standard Organisation) endorsement by Standards Australia in 1993. Full HACCP certification was obtained in 2000 while in 2015 Confoil obtained FSSC 22000 accreditation.

The FSSC 22000 provides Food Safety Management System provides a framework for effectively managing Confoil's food safety responsibilities. FSSC 22000 is fully recognised by the Global Food Safety Initiative (GFSI).

Customisation & Custom Printing to Suit Your Needs

MORE THAN JUST PACKAGING

The packaging for the food you make or manufacture can be much more than a functional feature – it can also be a great way to highlight your brand to customers.

With Confoil, you can create something that fits the needs of your product and showcases it beautifully at the same time, whether you start with foil, Smoothwall, DualPak, DualPakECO, muffin wraps or flexible packaging.

Our team of experienced sales and production teams can take your project from product selection to design options and costings. We can provide you with real branded samples before progressing to full production. And because we manufacture locally, we can also offer quick turn-around times as well as peace of mind.

COLOUR

SIZE

BRANDING

Our large range of packaging products offers your business a variety of customisation options. Everything from individual colour, to tailored sizes to branding with your logo or campaign artwork is available to you.

Making your brand stand out has never been easier.

Join the Refoilution

THERE'S A REFOILUTION HAPPENING IN THE FOOD INDUSTRY...

Foil containers are at the heart of our what we do. Over 70% of what we produce, market and sell are foil containers for various uses and a variety of customers, including both wrinklewall and smoothwall options. We source and convert over 3,500 tonnes of foil each year to manufacture our high-quality packaging containers and associated foil products.

Foil containers, first invented for TV dinners in 1952, offer many functional benefits for food packaging and storage – aluminium foil itself has been manufactured for over 100 years!

Foil packaging protects food against light and air and also preserves the food quality. Furthermore, due to its production and the high temperature annealing process, it is completely sterile so is safe for use in contact with foodstuffs. Foil does not harbour or promote the growth of bacteria so it's perfect for food, cooked or raw.

Aluminium foil doesn't lose any of its properties in the recycling process and is endlessly renewable. In fact, some 75% of all aluminium ever produced is still in use – in some form or another. What's more, recycling aluminium also saves energy when compared to what's required for its primary production. Endlessly renewable, the humble foil container, lid containers and trays are an uniquely sustainable choice.

Eco Tip

Unlike single-use plastics, aluminium foil is pure in composition. It is easy to recycle through standard kerbside recycling (where available) and can be melted and reformed over and over again without any compromise to the structural properties of the material. Aluminium foil is pretty amazing stuff!

7000 Series

SQUARE & OBLONG TRAYS WITH LIDS

The 7000 series foil containers are square or oblong and feature a sturdy stand up flange to accommodate matching lids where available.

This range also includes multi compartment containers and large serving trays, perfect for your catering needs.

Smoothwall Foil

Smoothwall Foil

Our Smoothwall foil trays are made from extra tough, heavy gauge aluminium with a smooth flange to accommodate sealing films as well as clip-on lids for selected trays.

Perfect for preparing, displaying and cooking chicken, fish, meat, prepared meals and deli counter ranges. Smoothwall foil is an especially popular choice for butchers and fish mongers.

A person with long brown hair, wearing a white button-down shirt, is seated at a wooden table. The table is set with a meal consisting of several items: a white rectangular container filled with hummus and chickpeas, a purple plate with falafel balls, a slice of tomato, and a piece of pita bread, a small blue bowl containing sliced red and yellow bell peppers, a round wooden bowl filled with fresh green herbs like cilantro and mint, and another white rectangular container filled with several pieces of golden-brown pita bread. The background is softly blurred, focusing attention on the food and the person's hands.

DualPak[®] &
DualPakECO[®]

DualPak Trays

THE ULTIMATE ALL ROUNDER MEAL TRAY

Made from pressed paperboard, our DualPak tray features natural insulation properties that make it highly adaptable to a wide variety of conditions. The DualPak tray is extremely versatile and can be frozen, chilled, heated in the oven or microwave, and even doubles as a beautiful and functional tray to prepare food directly in and display for sale.

The DualPak tray is the go-to choice for many leading food manufacturers and is a favourite in the ready meals space due to its broad appeal and list of product features.

DUALPAKECO READY MEAL TRAYS

Certified Compostable & Kerbside Recyclable

Australian made and certified both commercially and home compostable, DualPakECO is a dual ovenable pressed paperboard food tray. DualPakECO trays are coated with ecovio® by BASF, a food safe contact, compostable biopolymer coating. ecovio® is a food contact safe, biopolymer coating that provides excellent barrier properties against liquids, aromas and oils.

DualPakECO is both ovenable and microwavable and can be chilled or frozen. Once used, it can be composted while still containing food residue, or rinsed and recycled.

Pulp Meal & Produce Trays

PULP MEAL TRAYS

Made from a sturdy wheatgrass base, our pulp meal trays offer a multi-cavity and separated solution for food preparation and are designed to accommodate sealing films. Pulp trays can be frozen, and are microwavable.

PULP PRODUCE TRAYS

Our pulp produce trays are perfectly suited for displaying fresh fruit and vegetables. With ribbed embossing and an engineered flange, our trays have just the right amount of strength and rigidity in order to hold weight well.

A close-up photograph of several ears of yellow corn on the cob, charred and garnished with fresh green herbs. The corn is wrapped in crinkled aluminum foil. In the foreground, a wooden bowl contains a creamy yellow dipping sauce topped with more herbs, and several lemon wedges are visible. The background shows more corn and a wooden bowl with a light-colored sauce.

Catering Supplies

While much of the extensive Confoil product range lends itself beautifully to your catering needs, we also have a specific range of products that are perfect and practical for food preparation in your busy kitchen.

From quality baking paper, catering foil and pop-up foil sheets – all available in a range of sizes and thickness variations. Our carefully considered range is designed to make your job in the kitchen a little easier.

Tray Sealing

The Confoil range of tray sealing equipment and sealing films are designed with your busy kitchen in mind.

Ideal for hospitals and healthcare facilities, schools, correctional services and ready meals manufacturers, our range is created for makers of good food.

With both manual and automated systems available, you are sure to find an equipment to suit your needs. Our tray sealing equipment is compatible with both our DualPak, Smoothwall and Pulp Tray ranges.

Sealing Equipment

TS2XL Valko Manual Sealing Equipment

A manual benchtop tray sealing machine which features a quick changeover tray carrier system. Featuring temperature control, the TS2XL is simple, reliable and extremely low maintenance. Ideal for small food shops, catering and the ready meals industry.

This sealer suits Smoothwall trays 6118-32, 6522-33, 6522-44, 6422-58 and 6422-70.

Note this tray sealer features side loading sealing film and is ideal for Smoothwall trays.

1308 Manual Sealing Equipment

A user-friendly manually-operated benchtop sealing equipment. It seals and cuts film in one easy step, allowing for the sealing of 6-8 trays per minute. Using continuous film rolls, the self-aligning heat plate ensures a complete and even seal. This equipment features a compact design and is constructed of easy-to-clean stainless steel and anodized aluminium. Suitable for DualPak and Pulp Trays.

Please note the largest possible tray size accommodating with this equipment is the DP6170.

1808 In-Line Sealing Equipment

The continuous motion of the conveying system allows for the sealing of 27 trays per minute and is constructed of easy-to-clean stainless steel and anodized aluminium.

Suitable for DualPak and Pulp Trays.

1908E In-Line Sealing Equipment

The efficient intermittent-motion of the 1908E sealing equipment allows for sealing of between 5-27 trays per minute. Using continuous film rolls, trays are automatically discharged with an adjustable discharge shelf. This sealing equipment also offers adjustable dwelling time and sealing platen force.

Simple to operate, the continuous film rolls allows for quick meal preparation. Constructed of easy-to-clean stainless steel and anodized aluminium.

Sealing Film

To complement our range of trays, we also offer associated sealing films which can be used in conjunction with our tray sealing equipment.

Sealing film provides a strong and hygienic cover for food trays, while providing an easy to open experience for the consumer. Depending on your needs, we have a variety of sizes available.
