The new premium machine-blown RIEDEL Superleggero series is the fourth evolution from wine-friendly Sommeliers series in 1958, to groundbreaking Sommeliers Grape Varietal Specific collection in 1973 and handmade RIEDEL Superleggero of 2015. Based on handcrafted techniques, RIEDEL Superleggero is a super light collection produced using sophisticated machinery developed in-house at the RIEDEL Weiden factory. Superleggero brings superior precision resulting in a finely tuned collection free of variation, upholding RIEDEL's position as a technical glassware pioneer. This thin-walled, perfectly balanced series is difficult to distinguish from handmade and mouth-blown glasses, previously impossible to match with machine production.

# RIEDEL

RIEDEL Veloce is an impressive collection that utilises state-of-the-art technology. Produced by a specially developed machine at RIEDEL's Weiden factory in Germany, this cutting-edge technology creates glassware equal to those crafted by a master glassmaker. The name 'Veloce', meaning 'fast' in Italian, was chosen based on the speed at which our machine is able to produce at such high quality.

With three generations of experience in creating functional, Grape Varietal Specific glassware, RIEDEL Performance is the result of 10th and 11th generations Georg and Maximilian Riedel's constant drive to improve on what has come before. This cutting-edge collection was the first RIEDEL series to feature bowls with a light optic impact. This unique effect is not only visually pleasing but also has a positive impact on the perception of the wine's bouquet and flavour, offering you a heightened experience.

# RIEDEL

RIEDEL Winewings is a brutally functional glass collection, taking wine's aromas and flavours on a flight. Made up of seven shapes, these flat-bottomed glasses are reminiscent of the wing of an aircraft. This offers the wine a greater surface area in the glass, increasing the levels of evaporation and enabling a greater intensity of aroma.

# RIEDEL

Experience the unique curvature of SL RIEDEL Stemless Wings, following the release of our incredibly popular collection RIEDEL Winewings in 2020. This stemless creation is the perfect complement to the original stemmed series, featuring three stemless wine tumblers crafted by 10th generation Georg Riedel. To ensure the tumblers sit comfortably within the drinker's hand, each Grape Varietal shape required a set of new prototypes to determine how much the glass could be reduced while maintaining the delicate and important characteristics of each wine.
