

PEUGEOT EXPERTISE

Based in Quingey in France's Doubs region, Peugeot's factory employs 140 people and manufactures the world's best-known mills! The whole process is carried out onsite - from design, to technical development, to production. The wood is turned, varnished or painted, while the mechanisms are machined and assembled with painstaking care, reflecting Peugeot's expertise in crafting wood and steel.

OUR FOUR KEY COMPETENCIES

1. Metalworking has been the driving force for Peugeot's ingenuity. In 1840, the first mechanism was engineered from high quality steel to guarantee an unrivalled level of durability.
2. Woodturning facilities are the largest in Europe. Our turning skills can transform a rough block of wood into a stylish table mill.
3. Painting in a wide range of colours, whether natural finishes, bright colours, matte tones, or lacquer.
4. Assembly is 100% completed in our workshops. Every piece passes through our employees' expert hands and so we can guarantee that our products offer the ultimate in quality and harmony.

Peugeot Saveurs – the instruments of taste!
